

Tensile experiments on steel wires

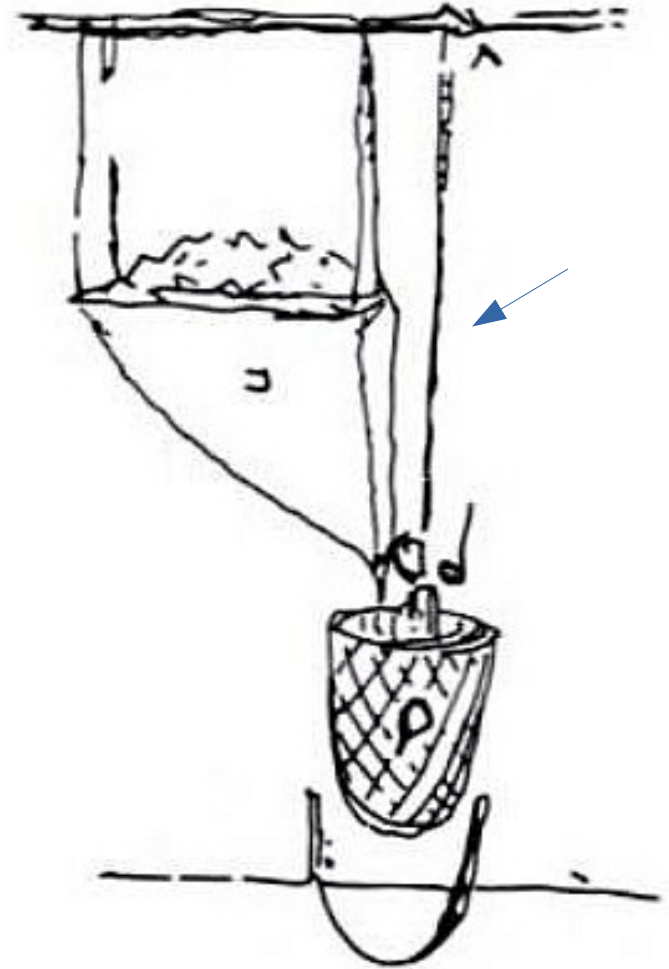

Leonardo Da Vinci

UNIVERSITÀ
DEGLI STUDI
FIRENZE

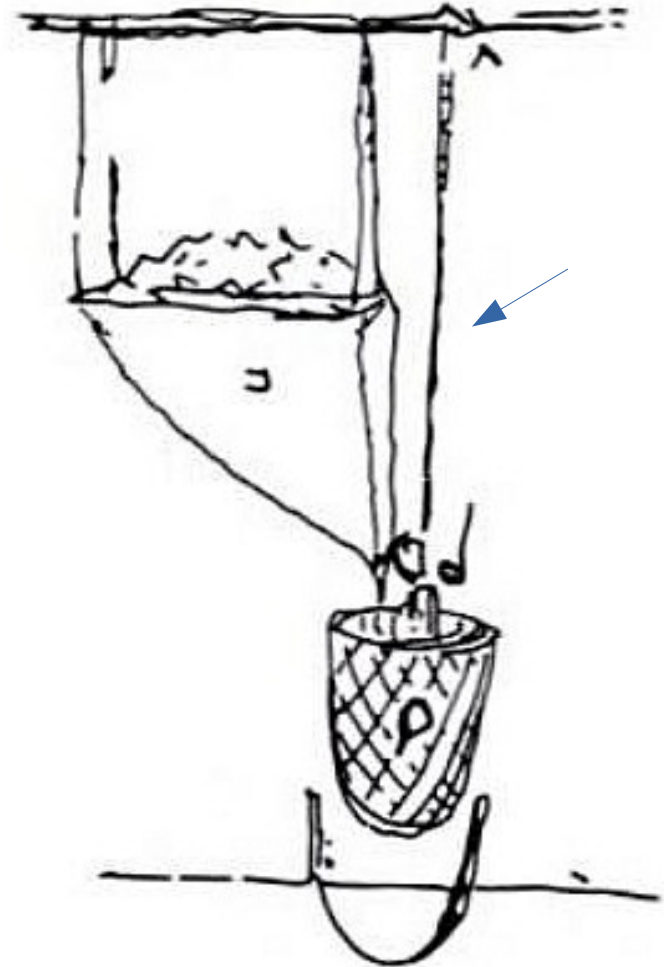

From instrument to publication

- 1) Build setup and get sand
- 2) Get wires and measure thickness
- 3) Perform experiments with protocol
- 4) Repeat with wires from Verona
- 5) Analyze and tell people

My data challenges

- I lost my previous paper notes.
- I don't understand handwriting of apprentice.
- Document 'door' procedure and how do I call it?
- How to publish that future generations can repeat?

Requirements of university

- none
